

SEND Careers Programme Overview

2021/22 Northcott School

Vision Statement

At Northcott School, we recognise the importance of setting high expectations in relation to attendance, dress, attitude to learning and conduct. These key expectations are embedded in our daily life. We believe that all our classes should focus on the future and job aspirations from Primary onwards. We ensure that our pupils are not restricted by gender stereotype, ethnicity or SEN need. We believe that our pupils should be prepared for the real world, not hidden from it.

Milestones and Learning Outcomes

Year 8

Career Exploration

Students will explore the world of work throughout their PHSE curriculum, exploring what it means to work and what skills and qualities they have.

Year 9

Career Exploration

Students will continue their career exploration throughout their PHSE learning, using legislation tools, developing new skills and identifying strengths. By the end of KS3 students will be starting to formulate their own career ideas.

Year 10

Career Experiences

Students will reflect on their personal skills and abilities to formulate goals and ambitions. They will learn how to overcome challenges and about a life/work balance.

Year 11

Career Experiences

Students will continue to research post 16 pathways and make applications to their chosen provision by an introduction to Log on Move on. They will learn tools for success and dealing with constructive criticism.
